

### **The two fat little piglets**

On our Farm we had many black and white pigs. There were a few mama pigs that had little piglets every year.

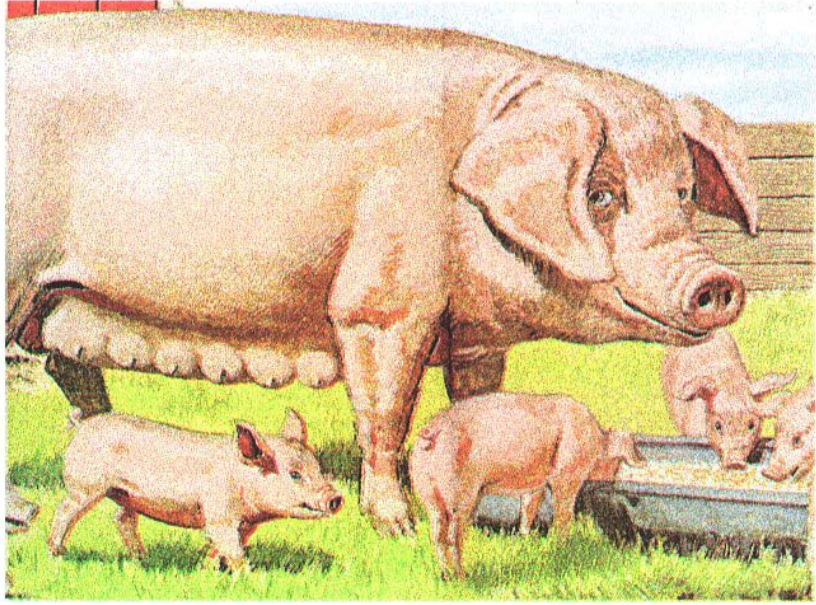

One year one of the mama pigs had 8 darling little piglets. On her stall door was a small opening for the little ones to get out and run. O, they enjoyed themselves running all over the barn. It was fun watching them running to their hearts desire making funny onk, onk noises. Then we noticed two of the piglets were getting bigger and bigger. What is happening, why are just the two getting so big?

My Daddy and I, one day very quietly, hid in the pigs barn. Sure enough the two fat little piglets came through the hole and ran into the cow barn making their onk, onk noise.

When one of the cows heard the onk, onk noise she laid down on her side so the two little piglets could come and suckle her milk. This was so very funny. My Daddy and I looked at each other and just started to laugh. Did you ever laugh so hard that your side hurt? That is what happened to me. The two little piglets just kept on sucking, we could not scare them away. Only they got so big that they could not get through the hole any more.

**What a shame**

That was the end of their adventure and had to stay with their Mama.

**Pigs—Pigs—Pigs--pigs**
